

# merlin™

## Introducing the Most Advanced Full Color Video Magnifier!

**MERLIN** is the newest, most desirable full color, auto-focus video magnifier system available. The Merlin has been ergonomically designed for ease-of-use and to enable you to regain your independence. Enjoy reading, writing, crafts and hobbies again using Merlin!

The flexible system comes with optional voice recognition and your choice of a 14" or 20" monitor. With voice activation you can change the magnification or viewing mode with simple commands.

The Merlin's easy-to-use tactile buttons enable you to switch viewing modes, locate objects and pre-set your preferred

settings. Instantly enlarge or reduce images. The Merlin magnifies images and text up to 66X and has the largest working space of any video magnifier.

### Unique Features:

- Voice-Activation
- Preset Magnification
- Image Locator
- Auto Focus with Intelligent Focus Lock

Value priced. The Merlin is the most feature rich product available at a very affordable price.
